KOLEHIYO NG LUNGSOD NG LIPA 2018- 2020

BS Computer Science

AMA UNIVERSITY 2017 - 2018

BS Computer Engineering

LIPA CITY COLLEGES 2015 - 2017

BS Computer Engineering

PROFILE:

Passionate and versatile Frontend Developer with Full-Stack experience building modern, responsive, and user-focused web applications. Experienced in working with Vue.js 2/3, Svelte, TypeScript, JavaScript, HTML, CSS, Bootstrap, and Tailwind CSS, with additional full-stack experience using Laravel.

I have contributed to projects for a well-known digital wallet in the Philippines, working with modern frontend technologies and development practices. Today, I use AI to enhance the development skills I already have, allowing me to work faster, solve problems more efficiently, explore better solutions, and improve the overall quality of my work while still relying on my own experience and understanding of development.

EXPERIENCE:

FRONT-END DEV | 2021 - CURRENT (5YRS)

Ascendion Inc

- Frontend optimization/refactoring improving code structure, performance, maintainability, and reusability.
- Proactively proposing technical solutions during refinement, identifying potential issues early.
- Providing technical guidance and mentorship to fellow developers.

FULL STACK DEVELOPER | 2020- 2021 (1YR)

Codabyte

- Database administration and website design.
- Real-time crypto data streaming.
- Troubleshooting, debugging, and resolving defects.
